Ready to join any company where I can contribute to innovative projects, enhance user experiences, and grow as a developer.

## Projects

---

### Shop It E-commerce Platform

**Description:** A fully functional e-commerce application designed to provide a seamless shopping experience for users. The platform supports end-to-end e-commerce workflows, including product browsing, shopping cart management, secure payment processing, and order tracking.

- **Technologies Used:** MERN stack (MongoDB, Express.js, React.js, Node.js), Stripe for payment gateway integration, and CSS for responsive UI design.
- **Key Features:**
  - **Product Management:** Dynamic product listing with advanced filtering and sorting options (price, category, ratings).
  - **Shopping Cart:** Intuitive cart system with real-time updates and persistent storage using local storage.
  - **Secure Payments:** Integrated Stripe payment gateway with tokenized payments and error handling.
  - **Admin Panel:** Custom admin dashboard for managing products, orders, and user accounts.

**Deployment:** Hosted on Heroku with CI/CD pipelines for automated testing and deployment
